1. GENERAL INFORMATION

1.1. Introduction

The sport of netball is set apart by its unique and distinctive rules, which define the skills of the game and the limits within which they must be performed. The Rules of Netball are interdependent and of equal importance.

As a whole, they direct its fundamental spirit and conduct, and ensure safety and fairness for all competitors.

Umpiring is an integral component of netball and is essential to the progress and success of the sport. As independent arbiters, umpires are ideally positioned to apply the rules to the best of their ability without fear or favour, and to make decisions in the interests of the game and its tenets of equal opportunity and sporting conduct. Skilled umpiring enhances the standard of the game by complementing and encouraging skilled play, for the enjoyment of participants and spectators alike.

Like players and coaches, umpires are not perfect. In order to improve, their performance should be the subject of regular analysis and constructive review. However, unwarranted, and uniformed abuse of umpires damages the integrity of the game of netball, and undermines the important efforts made to recruit and retain umpires.

Netball Australia recognised the significant contribution that proficient and intelligent umpiring makes to the sport of netball. It therefore considers it essential that the neutrality of umpires at all levels is acknowledged and protected, and that umpires are given access to training and support so that they are encouraged to participate and strive for excellence

To this end, Netball Australia:

- Supports the role of umpires and the sport of umpiring at all levels of netball.
- Provides a supportive environment for umpires through strong leadership and management at the national level.
- Implements education, training and mentoring programs for umpires at all levels through Netball Australia's national umpiring pathway.
- Promotes opportunities for talented umpires to perform and attain qualifications commensurate with their abilities at national and international level.
- Educates the media about the Rules of Netball and the role of umpires.
- Establishes appropriate mechanisms for comments and feedback regarding umpire performance.
- Investigates and sanctions individuals/groups that abuse umpires and bring the game into disrepute.

Netball Australia has developed and implemented this comprehensive National Umpire Development Framework to attract, develop and retain quality umpires at all levels of the sport both nationally and internationally.

The National Umpire Development Framework is complimented by the Netball Australia High Performance Umpire Pathway, which is aligned to the national athlete pathway.

Any State/Territory MO that is not part of the National Risk Protection Program will be required to provide the same level of Public Liability and Professional Indemnity insurance.

All course participants must be registered members of their local State/Territory Netball Association prior to accreditation being granted, to ensure adequate insurance cover. This membership must be maintained annually, whilst the participant is still actively umpiring.

- Refrain from conduct which could be regarded as sexual harassment, discrimination, bullying or victimisation.
- Be courteous, respectful and open to discussion and interaction with other netball participants.
- Maintain or improve your current performance level and seek continual improvement.
- Be honest and do not allow your qualifications/ accreditation to be misrepresented.

1.5. Recognition of Prior Learning (RPL)

- 1.5.1. Netball Australia may grant RPL for umpiring badges/awards from other countries where this is assessed as equivalent to a relevant umpire accreditation level.
- 1.5.2. Applications for RPL should be directed to the Workforce Manager, Netball Australia, through the respective MO, and must include details of all umpire education and practical experience.
- 1.5.3. Netball Australia may require the applicant to undertake a practical assessment to establish the level of RPL granted.

1.6. Member Protection Policy

- 1.6.1. NA is committed to treating all people with respect, dignity, and fairness. 3. NATIONAL UMPIRE ACCREDITATION SYSTEM

3.1. National Umpire Accreditation System Overview

- 3.1.1. The NA Umpire Accreditation System is an educational pathway based on NA Umpiring Courses (Foundation and Elite), the Sport Australia Community Officiating General Principles (Community & Advanced), ongoing professional development and practical umpiring instruction through an experienced umpire coach/mentoring system.
- 3.1.2. Assessment is based on an appropriate pass mark of the Rules of Netball Theory Examination, practical evaluation through established competencies, self-reflection, coach feedback and, where possible, video analysis.
- 3.1.3. The culmination of this accreditation system, leads to practical assessment in a 4-tiered system of badges: C, B, A and the highest national award the AA (All Australia).
- 3.1.4. It is not essential to proceed sequentially through each badge level. The only pre-requisite badge level is an A Badge before testing for an AA Badge.
- 3.1.5. No age restrictions apply to candidates for any badge level.
- 3.1.6. Candidates may be tested up to twice in any calendar year for the same badge level.
- 3.1.7. Testing for C, B and A badge may take place on a men's game, which must be approved by the relevant MO;
- 3.1.8. Testing for C & B badges must be played on a competition that is affiliated to, or approved by the respective MO;
- 3.1.9. Testing for all levels must be undertaken on a game of standard. A game of standard is a match which displays the assessable competencies of the badge level being tested;
- 3.1.10. The testing panel is assembled in line with the requirements of the NUDF;
- 3.1.11. The MO determines that the standard of the game is at the required level to test for C, B and A badge – that is the games have sufficient level of skill within them for an umpire to be able to display the required competencies of the badge; and meets all other testing requirements as outlined within the NUDF.

8. UMPIRE BADGE COMPETENCIES

8.1. Overview

- 8.1.1. The Netball Australia Umpire Accreditation system is an educational and development pathway, culminating in a 4-tiered badge system – C Badge, B Badge, A Badge and the highest national award, the AA Badge.
- 8.1.2. It is essential that testers are aware of the competency standards established for each badge level, and make their assessment based on the criteria provided. In addition, they must understand the distinctions between the different badge levels, and the advancement in skill and understanding that an umpire must display in order to progress.
- 8.1.3. To receive a badge, the umpire must be rated as competent in each area of the assessable performance criteria set for the level concerned.
- 8.1.4. Knowledge, skills and techniques must be demonstrated or performed to a specified standard under set conditions, as assessed by approved testers. These competencies are a continuum from basic level to expert execution.
- 8.1.5. Umpires and umpire coaches should also be familiar with the competencies required at each badge level and should utilise the education and development programs available to them, to focus on improving their knowledge, skills and techniques to the required level.
- 8.1.6. To assist all involved in umpire development and assessment, NA has prepared a matrix that details the competency continuum for the 4-tiered badge system as well as competency- based assessment sheets for all badge levels.

8.1.7. The matrix provides a snapshot of the competencies that an umpire is required to demonstrate for each badge level in the key areas of communication and game management; positioning, vision, and timing; contact; obstruction; advantage; and minor infringements.

8.2. Ratings Definitions

The level of proficiency required for each competency area has been divided into five ratings:

- **Not expected:** Candidate is not required to demonstrate practical application of this rule and/or procedure for this badge level.
- **Sometimes:** Candidate shows basic level of knowledge of rules and procedures and demonstrates ability to apply skill in obvious situations.
- **Usually:** Candidate shows intermediate level of knowledge of rules and procedures and demonstrates ability to apply skill at most times in the game context.
- **Consistently:** Candidate shows advanced level of knowledge of rules, procedures, and match protocols, and demonstrates ability to apply skill to a high standard across a broad range of situations.
- **Expertly:** Candidate shows detailed and extensive knowledge of rules, procedures, and match protocols; and applies skill to an expert level in all game situations, including complex and unorthodox scenarios.

8.4. Summary of Competencies

BADGE LEVEL	SUMMARY OF COMPETENCIES
C BADGE	<p>Basic game management in order to keep game moving and maintain player safety to average standard matches.</p> <p>Basic procedural competence (late arrivals, failure to take the court, stoppages).</p> <p>Basic positioning and vision skills.</p> <p>Reactions/timing appropriate for low to average standard matches.</p> <p>Usually recognises and penalises obvious infringements, both major and minor.</p> <p>Applies “advantage goal” so as not to disadvantage non-offending team.</p>
B BADGE	<p>Sound game management and implementation of procedures.</p> <p>Some understanding of when measures need to be taken to keep game safe (for example, overt unsportsmanlike conduct or dangerous play).</p> <p>Positioning and vision are not restricted to the immediate area where the ball is or the bulk of players are, to take into account what is happening behind and ahead of play. This requirement is matched by the requirement that the candidate demonstrate basic advantage skills.</p> <p>More consistent recognition of minor infringements and more refined understanding (footwork, played ball for example).</p> <p>Obstruction: beginning to understand implications of rule beyond simple 0.9m defence (jump and land, standing within 0.9m and interfering with throwing/shooting action); beginning to recognise use of arms to limit movement of player without ball; obvious defending out of court.</p> <p>Contact: beginning to go beyond obvious examples of interference to distinguishing fair contest from contact (understanding body movements, including recognizing when a player or players cause an opponent to interfere).</p> <p>Advantage: vision skills allow some recognition of context of play and some assessment of what is of advantage to the non-offending team.</p>
A BADGE	<p>Detailed understanding and application of all aspects of game management, including foul play (13.2) and the actions that may be taken by umpires (13.1, 13.3).</p> <p>There is an expectation that positioning, vision and timing will be guided by play and informed by an understanding of the game context. General principles are consistently executed, including adapting positioning and vision to specific circumstances to secure best view of play.</p> <p>This in turn allows a more refined application of the Advantage Rule, which allows the game to flow without losing control or undermining the standards set for game management.</p> <p>Rule interpretations demonstrate an understanding of the rule, an attention to detail and a common sense application in the game context.</p> <p>There should be a high level of consistency across both minor and major infringements. In particular:</p> <p>Obstruction: consistently penalises all forms of 0.9m defence across court areas; consistently recognises obstruction of player without the ball</p> <p>Contact: consistently distinguishes between contact and contest (again, allowing the game to flow without losing control or undermining game management); accurately identifies and penalises causing contact and inevitable contact.</p>

BADGE LEVEL	SUMMARY OF COMPETENCIES
AA BADGE	<p>**The AA badge is an elite umpiring qualification reserved for candidates who display the highest levels of technical proficiency, rule understanding and game management.</p> <p>Complete understanding of all aspects of game management which allows necessary procedures to be implemented promptly and professionally when they are required; good judgment and “game sense” to ensure that the available actions are used at the right time and for the right purpose.</p> <p>Positioning, vision and timing work together to be in the best place at the right time, even when this is counter intuitive. The umpire reads play to adapt to different paces, patterns, and styles of play with minimal disruption to timing and decision-making.</p> <p>High level of decisional accuracy across major and minor infringements; makes decisions quickly and precisely; and applies them efficiently. Shows ability to prioritize correctly when multiple infringements occur.</p> <p>Demonstrates consistency and expertise in application of the Contact and Advantage Rule to enhance the contest and allow skilled play to occur, while maintaining control and ensuring that no team is unduly disadvantaged.</p>

AA BADGE PRACTICAL ASSESSMENT SHEET NETBALL AUSTRALIA

The 'AA' Badge is an elite umpiring qualification reserved for candidates who display the highest levels of technical proficiency, rule knowledge and game management.

Candidates should demonstrate a complete understanding of all aspects of game management, and use good judgement and 'game sense' to apply procedures and actions at the right time for the right purpose. Positioning and vision work together to allow adaptation to different styles, patterns and phases of play, with minimal disruption to timing and decision-making. There is a high level of decisional accuracy across major and minor infringements, with particular consistency and expertise in the application of the contact and advantage rules to ensure the contest and allow skilled play to occur. In addition, candidates should demonstrate the ability to prioritise correctly when there are multiple infringements, in order to maintain control and ensure that no team is unfairly disadvantaged.

To successfully pass the AA Badge Practical Assessment, umpires must be rated as competent on all aspects of the assessable performance criteria. If the ASSESSMENT DECISION is COMPETENT, additional comments may be made in the General Comments section.

If the ASSESSMENT DECISION is NOT YET COMPETENT the Testers need to outline the ACTION PLAN discussed with the umpire. The action plan statement should identify further training, development or assessment needs to assist the umpire to reach the competency standard. Completed assessment forms are to be sent to Netball Australia, with a copy to be provided to the umpire.
