

KMC conditions of use at Lofberg

Ku-ring-gai Municipal Council (KMC) has outlined conditions of use for the Lofberg Road netball courts in an Action Plan (that will be available on the KNA website once it has been finalised).

Under this Action Plan KMC requires us to have a community liaison representative to be the first point of contact and facilitate discussion between the netball association and members of the local community for any small scale issues that arise during the booking period. For example, if a parked car is preventing a resident from exiting their driveway, the liaison representative can be contacted to assist in finding the owner of the car.

A site specific Traffic Plan will also be developed for Lofberg and Grayling Roads when the netball courts are in use by KNA. As part of this plan the following will apply:

- On Saturdays the unsealed area opposite Grayling Road immediately adjacent to the courts will be designated **disabled parking and permit parking. 2 spaces will be available for disabled parking** on that day only and will be identified by 2 sandwich board signs. KNA will **cordoned off the area to be used for permit holders with traffic cones** and put up signage on the court fence to advise of the parking conditions.
- KNA will advise players and spectators of Lofberg Road Netball Courts that they must **first park in the lower Golden Grove and West Pymble Community Hall car parks**. Once these locations are full, parking should commence along the roads, complying with the parking conditions
- KNA will include on player information sheets detail regarding the limited parking available at Lofberg Road netball courts. This will include advising people to consider parking up to 1km away from the courts and to 'walk' to netball to minimise the impact and delay in parking.
- KNA will publish on their website for the duration of the season (including training and Spring Competition) the parking conditions referred to above and a statement regarding the need for players and spectators to respect the amenity of local residents and not to park in residential drive ways.

KNA encourages you to respect the amenity of the local residents, park within the designated areas safely and legally and as requested by KMC, and to refrain from unnecessarily impacting on the comfort of the residents of Lofberg Road Netball Courts.
