

KNA Club Storage – Canoon Rd

Storage at Canoon Rd is limited and is therefore managed with due regard to the following (in decreasing order of priority):

1. Allowing safe access to the equipment, particularly in the dark on winter mornings.
2. Providing storage for KNA equipment.
3. Providing storage for club equipment.

In order to comply with the above priorities, the following procedures apply to clubs wishing to store equipment at Canoon Rd:

1. Clubs may store the following on site:
 - One 3m x 3m shade shelter with or without a covering bag.
 - No extra bags for sides. If the shade shelter comes with sides, they must be stored inside the main covering bag.
 - One folding table:
 - Maximum card table size.
 - Square or rectangular (i.e. not round) for easier and safer stacking.
 - No other equipment - no chairs, trolleys, balls, tubs, folders, banners, uniforms, drink bottle carriers etc.
2. All equipment must be stored in the storage container.
3. Clubs are responsible for ensuring that all equipment is packed neatly into the container before or at the end of the day.
